created by Reimagining Dementia: A Creative Coalition for Justice**

Verse 1

You and I are like trees in a forest  
equal and strong in any weather  
joy in the sunshine  
bow and bend in the rain  
our roots grow together

We are, we are, like birds of a feather  
you lead then i lead  
we get there together  
you hear my song, you sing along and we fly

Chorus

Its a new day, its a new way  
Its a new day, its a new way  
Let's reimagine

Its a bold day  
lets create a world  
where everyone can thrive  
a together day where the joy of one  
is the joy of all alive

Its a fearless day its a hopeful way  
let's reimagine  
repeat

Verse 2

We are like flowers, lets tend our garden  
given the space, we all can blossom  
different ability, gorgeous diversity grows  
we thrive together
